HEARING RESEARCH

Vol. 159, Nos. 1–2
September 2001

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update; Full text available in ScienceDirect® and Neuroscion

Research Papers

L. Xu and P.H.-S. Jen (USA)
The effect of monaural middle ear destruction on postnatal development of auditory response properties of mouse inferior collicular neurons 1

K. Husain, C. Whitworth, S.M. Somani and L.P. Rybak (USA)
Carboplatin-induced oxidative stress in rat cochlea 14

M.R. Osofsky, C.M. Moore and P.A. Leake (USA)
Does exogenous GM1 ganglioside enhance the effects of electrical stimulation in ameliorating degeneration after neonatal deafness? 23

V. Neuert, D. Pressnitzer, R.D. Patterson and I.M. Winter (France, UK)
The responses of single units in the inferior colliculus of the guinea pig to damped and ramped sinusoids 36

M. Tykocinski, Y. Duan, B. Tabor and R.S. Cowan (Australia)
Chronic electrical stimulation of the auditory nerve using high surface area (HiQ) platinum electrodes 53

J. Santos-Sacchi, M. Wu and S. Kakehata (USA)
Furosemide alters nonlinear capacitance in isolated outer hair cells 69

T. Baer, B.C.J. Moore and J. Marriage (UK)
Detection and intensity discrimination of brief tones as a function of duration by hearing-impaired listeners 74

J.V. FitzGerald, A.N. Burkitt, G.M. Clark and A.G. Paolini (Australia)
Delay analysis in the auditory brainstem of the rat: comparison with click latency 85

A.G. Paolini, J.V. FitzGerald, A.N. Burkitt and G.M. Clark (Australia)
Temporal processing from the auditory nerve to the medial nucleus of the trapezoid body in the rat 101

K. Sheykholeslami, K. Kaga and M. Mizutani (Japan)
Auditory nerve fiber differences in the normal and neurofilament deficient Japanese quail 117

G. Zajic, C. Henley, J.-C. Louis, M. Nicolson and E. Magal (USA)
Distribution of immunophilin FKBP-12 protein and mRNA within the mammalian cochlea and cochlear nucleus 125

R.P. Derleth, T. Dau and B. Kollmeier (Germany)
Modeling temporal and compressive properties of the normal and impaired auditory system 132

Letters to the Editor

D.H. Keefe (USA)
Inter-ear variations in the eardrum impedance and stapes velocity in the human middle ear 150
